Seminar “Energy efficient Construction”

21.11.2012 Hamburg

Date: 21.11.2012

Venue: ELBCAMPUS, Zum Handwerkszentrum 1, 21079 Hamburg

Participants: Belarusian entrepreneurs

Trainer: Dipl.-Ing. Jörg Wortmann

Energy Efficient Construction and Application of Renewable Energies for Small and Medium-Sized Enterprises.

Agenda:

Time Themen

09.00 – 09.15 Welcome words

09.15 – 10.30 Part I: Entry, energy efficiency, conservation

10.30 – 10.45 Coffee break

10.45 – 12.00 Part II: insulation

12.00 – 13.00 Lunch break

13.00 – 14.30 Part III: Heat Engineering

14.30 – 14.45 Coffee break

14.45 – 16.00 Part IV: Ventilation, Conclusion, discussion

16.00 – 17.00 Visit of the exhibition: EnergieBauZentrum

The objective of this seminar is to give the employees and decision makers in small and medium-sized enterprises (SMEs) an overview of the possibilities of energy saving measures in their enterprises through the adoption of energy-saving measures and /or the use of renewable energies. The seminar provides information and facts about various possibilities, costs and benefits, as well as good examples to enable the participants to assess the implementation of possible measures in the sector-specific enterprises.

Mr. Wortmann did a presentation with topics as follows:

- Why renewable energy use and
- Energy efficiency measures take?
- More motivation for climate protection
- What energy-service is needed?
- energy Performance Certificate
- Collect and analyze energy consumption:
- Steps to save energy
- Energy concepts for buildings

Energy saving is a MUST for each country and every community. For new buildings, efforts are made through the statutory requirements to improve

The construction standards relating to energy. In particular, retrofitting should be applied in the existing buildings, and thus also the application of renewable energies.

This Seminar is addressed to small and medium-sized enterprises which would like to get an overview of

- energy-efficient modernisation of buildings and
- the use of renewable energies.

The Belarusian entrepreneurs were very active asking many question about presented topics.

No further clarifications and discussions are needed.

Mr. Jörg Wortmann thanks all participants for their engagement and very good cooperation within the seminar.

For the minutes: Wioletta Giergielewicz
